

Rocks, Relics and Rumbles

Name

These activities are for you to do at home. You can do all of them or choose the ones that you find most interesting.

Activities

1. Create a model of the layers of the Earth using a range of materials. Label each layer and write a short description about each layer's features. Sketch your idea for a model below.

2. There are three main rock types. These are sedimentary, igneous and metamorphic. Briefly describe how each type is formed, their properties and at least two examples of each type.

sedimentary

igneous

metamorphic

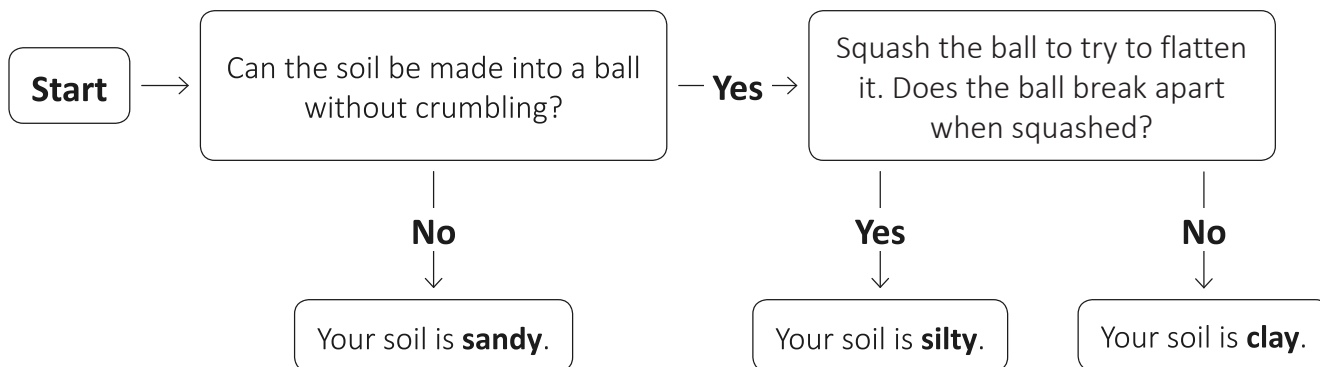

3. Use a range of sources to complete the table about the three different rocks shown.

Rock	 chalk	 granite	 slate
Type (sedimentary, igneous or metamorphic)			
Appearance			
Properties			
Uses			

4. Investigate the soil in your garden and local area. Dig a hole 10cm deep and scoop up a handful of soil from the bottom. Remove large stones and roots, sprinkle a little water on it and try to work the soil into a ball. Use the soil key to identify the soil type and record your results. **Be careful of broken glass and sharp metal and wash your hands afterwards.**

Soil key

5. Make an information poster about Mary Anning, the famous fossil collector. Include images and interesting facts. Share your poster with a family member once it is complete.
6. Write a poem on the theme of volcanoes. You might like to write about an eruption, a specific volcano that you have learned about or the damage caused after a volcanic eruption. Try to include expanded noun phrases in your poem. For example, scorching hot, exploding lava or jet-black clouds.

7. Find the latitude and longitude coordinates for 10 places around the world. Record the places and coordinates in the table.

	Place name	Coordinates
Somewhere in Africa		
Somewhere in Antarctica		
Somewhere in Asia		
Somewhere in Australia		
Somewhere in Europe		
Somewhere in North America		
Somewhere in South America		
Your favourite holiday destination		
Your home town		
Somewhere you really want to go		

9. Finish your home learning by writing a summary of the topic, explaining what you have learned about the layers of the Earth, volcanoes and earthquakes.
