

“As R.E. lead, my vision is that our children experience the diverse beliefs and cultures of six of the major religions of the world: Christianity, Buddhism, Hinduism, Islam, Judaism and Sikhism. We aim to give our children the tools to be global citizens who can show understanding, appreciation, love and respect for all.”

Mrs. K. Whitehouse

Religious Education Subject Lead

Religious Education Curriculum Aims

- To develop **knowledge and understanding of different beliefs and practices**, including festivals, worship, rituals and ways of life, in order to find out about the meanings behind them and make connections between different features of the religions.
- **Expressing ideas and insights** by asking and responding to questions about what individuals and communities do, and why, so that pupils can identify what difference belonging to a community might make. Observe and understand varied examples of religions and world views so that they can explain, with reasons, their meanings and significance to individuals and communities.
- Gaining and deploying skills - Explore questions about **belonging, meaning and truth** so that they can express ideas and opinions in response using words, music, art or poetry. Discuss and present thoughtfully their own and others' views on challenging questions about belonging, meaning, purpose and truth, applying ideas of their own in different forms including reasoning, music, art and poetry.

EYFS and RE

Understanding of the world educational programme (taken from the EYFS Framework 2020)

Understanding the world involves guiding children to make sense of their physical world and their community. The frequency and range of children's personal experiences increases their knowledge and sense of the world around them – from visiting parks, libraries and museums to meeting important members of society such as police officers, nurses and firefighters. In addition, listening to a broad selection of stories, non-fiction, rhymes and poems will foster their understanding of our culturally, socially, technologically and ecologically diverse world. As well as building important knowledge, this extends their familiarity with words that support understanding across domains. Enriching and widening children's vocabulary will support later reading comprehension.

Early learning goals that link to RE are:

Understanding the World

ELG People and Communities

- Know some similarities and differences between different religious and cultural communities in this country, drawing on their experiences and what has been read in class;
- Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps.

What does Religious Education look like at Littleton Green Community School?

- * Each topic begins with sharing a 'Big Question'. This enables the pupils to see the bigger picture and gives purpose to what they are learning.

ENDPOINT ASSESSMENT

- * This is a product to showcase the learning which has taken place and the knowledge learnt. It can involve a prior session to create success criteria based on the concepts and a critical evaluation lesson.

BIG QUESTION

ENDPOINT EXPLORATION

- * At the beginning of the topic, teachers share a WAGOLL (What a Good One Looks Like). Here the learning process is explored and the children have the opportunity to input to their journey to the endpoint.

THE LEARNING JOURNEY

- * A series of learning opportunities where concepts are built on. Here the meaning is made and connections are formed.

ACTIVATING PRIOR KNOWLEDGE

- * Throughout the topic, there are built in opportunities for children to access their prior knowledge to help them make connections and make the learning stick. This may be through key vocabulary, knowledge organisers, carefully thought out questioning and more.

KNOWLEDGE ORGANISERS

- * A resource which is available to children for them to learn the 'sticky knowledge' to master the learning. These are working documents that the children refer to and add their new learning to.

KEY VOCABULARY

- * At the start and throughout the learning journey, children will be taught key vocabulary need to access the learning and secure the key knowledge.

Transition to KS1	Through our bespoke curriculum, Reception children are gently introduced to the world around them by exploring significant events that are meaningful to them and others. They begin by reflecting on what makes them unique, as well as special times shared with their families and friends. Children are encouraged to think about significant events from the past, helping them understand how these moments shape our lives. The concept of celebration is explored, teaching children why certain occasions are important to others and how they are celebrated in different ways. They also learn to appreciate the similarities and differences between various religions within our community and country, fostering an early understanding of diversity and respect for others. This holistic approach helps children develop a broader perspective of the world and the people in it.
