Child Friendly E-Safety Policy

This child-friendly e-safety policy has been developed in collaboration with our Digital Leaders with the aim of keeping children safe on the internet at home and at school.

Why do we like the internet?
- It is interesting and fun.
- We can learn a lot from the internet.
- We use it for our school work.
- You can stay in touch with family and friends.

What are the dangers of children going online?
- *Content Online* - We could see or hear things that are not suitable for you.
- *Stranger Danger* - People on the internet can pretend that they are someone else.
- People could ask for personal information, which is dangerous.
- *Cyber Bullying*—Not everybody on the internet is kind.
- *Viruses*—some emails can contain viruses.

What is E-Safety?

E-safety means electronic safety. E-Safety is important because it helps to keep you safe so we can enjoy, explore and have fun!

Why do we need an e-safety policy?
- To keep you safe whilst also having fun using the internet at home and at school.
- To advise you of appropriate content
- To make sure we all know what to do if something on the internet makes us worried.

How does Littleton Green Community School keep us safe when we use the internet at school?
- The grown-ups are always watching us when we use the internet at school.
- The grown-ups explain to us how to use the internet safely.
- Our school filters the search results so that it is ok for us to see.
- Our school uses special programs to monitor our use and block the programs that won't keep us safe

If we have a problem when we are online, what should we do?
- Keep calm and tell a grown-up straight away.
- Stay on the page so a grown-up can see what has made us feel worried/upset.
- Block and report anyone who is being unkind.

What should you not do?
- Do not keep worries to yourself.
- Do not be unkind to anybody.
- Do not delete messages.
- Do not switch off the computer without telling a grown-up.

Our internet rules are:

- 🌐 We ask permission before using the internet and we only use websites that a grown-up has told us to use.
- 🌐 We never share our passwords with anyone else.
- 🌐 We must never give anyone our personal information.
- 🌐 We need to tell a grown up if we see or hear something that makes us upset or worried.
- 🌐 We will never look for, save, or send anything that could be unpleasant or nasty.

Internet Rules

Ask permission before using the internet

Only use websites adults have told us to use

Never share passwords

Tell a trusted adult if worried about something online

Always look for, save or send appropriate content.
